IMPLEMENTATION OF SCHOOL SPORTS FACILITIES DATA MANAGEMENT SYSTEM

The Department of Education (DepEd) is implementing the Department of Education School Sports Facilities Data Management System (SSD) to collect and manage information necessary for school sports such as equipment, facilities and personnel. This database is essential to enhance and improve the school sports program for all public schools nationwide.

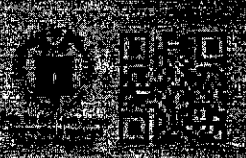

In the course of the monitoring, the RSOs/SSD will focus on identifying what sports facilities and equipment are available in public schools (e.g., Gymnasiums, courts, track and field, etc.) and will be:

1. identify schools that need intervention to improve their sports facilities;
2. determine the necessary sports equipment to be provided to schools through the School Sports Equipment Enhancement and Distribution (SSEED) Program; and
3. identify schools that can serve as playing venues for future sports programs and activities.

Accordingly, all schools are instructed to accomplish the survey form at [this link](#) and to submit the same on or before 31 March 2020. The Division Office (DO) for their part, are requested to ensure that all survey forms are completed and submitted.

For information and concerns, please contact SSEED-SSD at landline (02) 8632-0850 or email sseed@deped.gov.ph.

Very truly yours,
[Signature]
