SUBJECT : Learning Continuity and Safe School Operations Survey

DATE : January 27, 2021

As we continue to strengthen the implementation of the Basic Education Learning Continuity Plan (BE-LCP) and in preparation for the possible reopening of classes, the Department of Education (DepEd) will be conducting a survey that seeks to improve its initiatives for learning continuity and the safe operations of schools amid the pandemic. This shall help the Department provide alternative solutions to challenges encountered during the first few months of the school year as well as prepare for the implementation of face-to-face classes in case this will be permitted by the government. In addition, this shall also provide DepEd with data on how to strategically respond to the possible spike of cases in the communities. Specifically, the survey seeks to:

1. Determine the challenges of distance learning and identify possible solutions to address these challenges; and
2. Understand the following:
  - a. Willingness of parents, teachers, and learners to participate in limited face-to-face classes in MGCQ / low risk areas; and
  - b. Perception on school lockdown and its use as quarantine/isolation facility

The participants of the survey will be teachers, parents, and Grade 6 to Grade 12 learners nationwide. To ensure the efficient management of data, the survey will be deployed via phased implementation on the following dates:

TO: CID and SGOD Chiefs  
Education Program Supervisors, PSDSs,  
School Heads and all concerned

For dissemination, guidance and compliance.
