February 11, 2025

DR. GILBERT T. SADSAD, CESO III
 Regional Director
 DEPED REGIONAL OFFICE V
 Rawis, Legazpi City, Albay

Sir,

Greetings of Peace and Prosperity!

The DEBESMSCAT Supreme Student Council is currently gearing up for the **3rd Bicol and 8th Masbate Environmental Youth Leaders' Summit (B-MEYLS)** scheduled to take place on April 12-14, 2025, at Masbate City, Masbate.

In envisioning a transformed and sustainable future, it is imperative that fostering environmental leadership among the youth becomes a cornerstone for progress. **"Lak-ang: Mobilizing Youth as Catalysts for Climate Action towards Sustainable Development, Innovation, and Strategic Solutions"** highlights the transformative power of young people in addressing the pressing challenges of climate change. The theme envisions the youth as active agents and emphasizes their role in fostering innovative approaches, bridging traditional practices with modern solutions, and championing strategic collaborations that promote environmental stewardship and equitable progress. This concept calls for empowering young leaders to take decisive action in mitigating the impacts of climate change while advocating for sustainable development goals. It inspires the youth to rise as catalysts for change, not merely as participants but as pioneers shaping policies, practices, and innovations that align with a resilient and thriving world.

Registration fees and inclusions for the event are as follows:

Amount	Inclusions
Php.3,000 per head (for 10 or more participants from the same organization registering on or before March 28, 2025)	3D2N Lunch and Snacks, Event Kits, T-Shirt, Tour Fee
Php 3,200 per head (for 5-9) participants from the same organization registering on or before March 28, 2025)	
Php 3,400 (for individuals registering before March 28, 2025)	
Php 3,500 (for individuals registering onsite)	

In connection to this, we humbly ask from your good office to endorse this event to the **High School Student Leaders in the Bicol Region**. We can't wait to meet our young environmental leaders to help us achieve the mission of changing the world one community at a time.

We are hoping that you will have a favorable response to this request. Any concerns about the event can be expressed through an email to debesmscatssc@debesmscat.edu.ph or at [facebook.com/DEBESMSCATSSC](https://www.facebook.com/DEBESMSCATSSC) or contact MR. BRIX JHON A. MONROY (09380712039) and/or MR. DENNIS G. CORLET (09129847155).

Sincerely yours,

ARNEL B. MILLESCA, Ed.D., J.D.

Organizational Profile:

The **Supreme Student Council (SSC)** of DEBESMSCAT is a distinguished and non-sectarian organization, committed to fostering unity, understanding, and harmonious relationships among the student body. As the paramount governing and policy-making entity within the academic community, it upholds a degree of autonomy and independence, embodying the ideals of leadership and representation.

The Council serves as a dynamic platform for the articulation of students' ideas and sentiments, promoting the values of unity, equality, moral integrity, and nationalism, while nurturing the virtues of responsible citizenship and personal discipline. It aspires to elevate student engagement through purposeful involvement in campus endeavors, cultivating skills and talents that align with the institution's aspirations. Furthermore, the SSC lends its steadfast support to the administration in the implementation of institutional policies, thereby fostering collaboration and mutual respect among students, faculty, and administration in pursuit of the college's vision and mission.

In its noble pursuit of safeguarding the rights and welfare of the studentry, the SSC champions their participation in institutional governance, particularly in policy-making processes that directly influence their collective interests. Guided by a commitment to excellence and service, the Council endeavors to amplify the voice of the students, ensuring their active and meaningful participation in decisions that reflect the aspirations and will of the majority.

3rd BICOL & 8TH MASBATE ENVIRONMENTAL YOUTH LEADERS SUMMIT

Theme: "Lak-ang: Mobilizing Youth as Catalysts for Climate Action towards Sustainable Development, Innovation and Strategic Solutions"

Concept and Theme:

"Lak-ang: Mobilizing Youth as Catalysts for Climate Action towards Sustainable Development, Innovation, and Strategic Solutions" highlights the transformative power of young people in addressing the pressing challenges of climate change. The theme envisions the youth as active agents of change, equipped with the passion, creativity, and vision to lead efforts toward a more sustainable future. It emphasizes their role in fostering innovative approaches, bridging traditional practices with modern solutions, and championing strategic collaborations that promote environmental stewardship and equitable progress. This concept calls for empowering young leaders to take decisive action in mitigating the impacts of climate change while advocating for sustainable development goals. It inspires the youth to rise as catalysts for change, not merely as participants but as pioneers shaping policies, practices, and innovations that align with a resilient and thriving world. Through this theme, the message is clear: the youth are key to unlocking a sustainable and strategically innovative future.

Vision of the Event:

The 3rd Bicolano and 8th Masbate Environmental Youth Leadership Summit envisions young individuals to actively engage in activities towards sustainable development, foster innovative solutions, and build strategic partnerships, becoming catalysts for a resilient and sustainable future. To inspire and empower a generation of youth leaders who are passionate and equipped to drive transformative climate action; It aims to create a legacy of empowered youth who led with courage, creativity, and collaboration in addressing the climate crisis while promoting environmental stewardship and equity across all sectors of society.

Objectives of the Event:

The 3rd Bicolano and 8th Masbate Environmental Youth Leadership Summit aims to inspire and empower young leaders to take an active role in addressing pressing environmental challenges. It seeks to enhance the participants' knowledge and understanding of climate change, sustainability, and ecological stewardship through interactive workshops, expert-led discussions, and hands-on activities. The summit strives to foster a sense of responsibility and agency among the youth by equipping them with innovative tools, strategies, and leadership skills to initiate impactful environmental actions within their communities. Furthermore, it encourages collaboration and networking among participants, local organizations, and key stakeholders, building a unified movement for sustainable development and climate resilience in the region. Ultimately, the summit aspires to cultivate a new generation of environmentally conscious leaders committed to shaping a more sustainable and resilient future for Bicol and Masbate.

Theme: "Lak-ang: Mobilizing Youth as Catalysts for Climate Action towards Sustainable Development, Innovation and Strategic Solutions"

TOPICS FOR THE PLENARY SESSION

Topic 1: "Climate Disaster Ready: Capacity Building in Disaster Preparedness and Response"

Outline: *This emphasizes the importance of strengthening communities' ability to manage and respond to climate-related disasters. It highlights the need for comprehensive training and education for local leaders and youth, ensuring they are equipped with the skills to prepare for and respond to disasters like floods, typhoons, and droughts. Capacity building includes improving infrastructure, creating effective evacuation plans, and conducting disaster drills. Integrating sustainable practices, such as coastal restoration and reforestation, is key to reducing disaster risks and enhancing resilience. Despite challenges like funding and coordination, empowering communities through training, leadership, and active participation is essential for building disaster-ready, climate-resilient communities.*

Topic 2: "Awareness to Action: Lak-ang as a Platform for Youth-Driven Climate Advocacy for Sustainability"

Outline:

*This highlights the role of youth in marine conservation through the **Lak-ang** platform. Marine ecosystems face threats like pollution and overfishing, making their protection crucial for sustainability. Youth can raise awareness through campaigns and engage in actions like beach clean-ups and coral restoration. **Lak-ang** empowers young people to transition from awareness to action by supporting initiatives that advocate for policy change and sustainable practices. Through this platform, youth can drive meaningful conservation efforts, fostering a more sustainable future for marine ecosystems.*

Topic 3: Climate Mitigation: The Role of Young Leaders in Advancing Science, Technology, and Innovation for Climate Action

Outline:

- This emphasizes the pivotal role of young leaders in driving climate mitigation through the integration of science, technology, and innovation. It highlights how youth can harness cutting-edge solutions to address climate challenges, promote sustainable practices, and advocate for policies that mitigate environmental impact. By leveraging advancements in technology and scientific research, young leaders are positioned as key agents of change in shaping a sustainable future.

Topic 4: "Bridging Leaders of the Community: Efficient implementation of Environmental Policies for Climate Action"

Outline:

- This topic focuses on the importance of collaboration between community leaders to ensure the effective execution of environmental policies. For successful climate action, it is essential that leaders from various sectors—government, business, and civil society—work together to implement policies that address environmental challenges. Effective policy execution involves clear communication, resource allocation, and community involvement to ensure that the policies are not only enforced but also embraced by local populations. By bridging the gaps between leaders, communities can achieve greater impact in mitigating climate change and promoting sustainability.

Topic 5: "Breaking Barriers: Sustainable Practices and Conservation of Mineral Resources"

Outline:

-explores the need for sustainable management and conservation of mineral resources to ensure long-term environmental and economic stability. As demand for minerals increases, it's crucial to adopt practices that minimize environmental damage, such as reducing waste, improving recycling efforts, and using energy-efficient extraction methods. Breaking barriers in the mining industry involves overcoming challenges like regulatory gaps, technological limitations, and economic pressures. By promoting sustainable mining practices and resource conservation, we can protect ecosystems, reduce carbon footprints, and ensure mineral resources are available for future generations.

Transfer and Transportation

For **BMEYLS 2025**, ensuring smooth and efficient transportation for all participants is a top priority. For the **participants from DEBESMSCAT**, the **Shuttle Bus** will be stationed in front of the **Administration Building** at **6:30 AM on Day 0** to begin the transportation services, ensuring that all attendees are promptly and comfortably transported to the event venue. This shuttle bus, along with **commuter vans**, will be available for all travel needs before, during, and after the event.

Facilitators will be stationed to greet **participants arriving from Mainland Bicol**, with **commuter vans** waiting at designated pick-up points to bring them to the venue. These vans will ensure that everyone traveling from mainland can reach the event on time without hassle. The shuttle buses and commuter vans will follow a strict schedule to facilitate smooth and efficient travel, ensuring no delays and that everyone can attend the sessions and activities without concern.

Throughout the event, the shuttle buses and vans will continue to operate, providing transportation between the venue, hotels, and other necessary locations. Staff members will be present to guide participants to their assigned transport, and signage will ensure that everyone knows where to go for each scheduled trip. In line with the event's sustainability goals, eco-friendly transportation options, including hybrid or electric vehicles, will be prioritized wherever possible, and carpooling will be encouraged to minimize the carbon footprint.

By carefully planning and organizing these transportation services, **the committee on transportation** will ensure that all attendees have a seamless travel experience, allowing them to focus on the event's core activities and objectives.

Accommodation

Since the participants are considered **live-out**, meaning that the organization will not be providing accommodation or hotels directly. However, the event organizers have made arrangements to assist participants with their accommodation needs, ensuring that everyone has a place to stay during the event.

Participants coming from **Masbate** are encouraged to either check in at a hotel of their choice or make arrangements to stay with friends, family, or acquaintances within the city. While no specific accommodations are provided, the local participants from Masbate will have the flexibility to choose lodging based on their preferences, as long as it's within reasonable proximity to the event venue.

For participants traveling from **Mainland Bicol**, the organization will compile and provide a list of trusted hotels and accommodations. These options will be vetted to ensure safety, comfort, and accessibility, making it easier for Mainland Bicol attendees to choose a suitable place to stay. The list will include a variety of accommodations, ranging from budget-friendly to more premium options, catering to different preferences and budgets.

GV Hotel - Danao Street, Danao St, Masbate City, 5400 • (056) 578 6191

Novo Hotel - 9J99+FGW, 44 Quezon St, Masbate City, 5400 • (056) 578 0687

Treasure Island Hotel - Quezon Street, Masbate City, Luzon 5400 Philippines

Sampaguita Tourist Inn - Quezon Street, Masbate City, Luzon 5400 Philippines

Ross Hotel - 9J8C+XQ3, Quezon St, Masbate City, Masbate

Victoria Du Hotel - 9J8C+JPM, Tara St, Masbate City, 5400 Masbate

This approach allows participants the freedom to choose accommodations that best fit their needs while ensuring they have reliable options nearby to the event venue. The organization will also provide assistance with directions and transportation to help ensure that all participants can easily travel between their accommodations and the event site.

Promotional Advocacy

In the **3rd Bicol and 8th Masbate Environmental Youth Leaders' Summit**, we stand united in our mission to amplify the voice of the youth as champions of climate action and sustainability. Through this event, we advocate for innovation, collaboration, and leadership that address the pressing environmental challenges of our time.

Our story is one of empowerment, where every poster, social media post, and outreach effort reflects our unwavering commitment to inspire young minds and ignite collective action. We connect with schools, organizations, and communities, creating a shared vision for a resilient and sustainable future.

This summit is not just an event; it is a movement that celebrates the power of youth leadership to transform challenges into opportunities. Together, we tell a story of hope, determination, and change, inviting everyone to be part of this journey toward environmental stewardship and progress.

Exhibition / Sponsoring Information

- Office of the Mayor (Masbate City)
 - The Office of the Mayor of Masbate City, under Hon. Socrates M. Tuazon's supervision, serves as the local government's executive arm. In this regard, the 3rd Bicol and 8th Masbate Environmental Youth Leaders Summit will be held at Magallanes Coliseum. Hence, the proponents aim to ask for favorable sponsorship for the aforesaid event. By supporting this summit, the Office of the Mayor strengthens its commitment to the sustainable development goals (SDGs), community participation, and youth empowerment.

Theme: "Lak-ang: Mobilizing Youth as Catalysts for Climate Action towards Sustainable Development, Innovation and Strategic Solutions"

- Office of the Governor
 - The Office of the Governor of Masbate, under Hon. Antonio T. Kho, serves as the central executive authority in the province, ensuring effective governance and the delivery of essential public services to its residents. In connection to this, the proponents seek for sponsorship and support in any kind for the implementation of the said activity. This collaboration emphasizes the Governor's commitment to ensuring that the voices of young people are heard and empowering young leaders as agents of climate action.
- Youthled Representative/s
 - Youth-led representatives are young individuals who take on leadership roles to represent and advocate for the interests, rights, and concerns of their peers within various organizations, communities, or governance structures. Aligned with the objectives of this event, this organization plays a vital role for supporting young leaders and environmental advocates.
- Liceo de Masbate
 - Liceo de Masbate is a private HEI in the province of Masbate, which serves as a collaborating institution of the Dr. Emilio B. Espinosa Sr. Memorial State College of Agriculture and Technology. In partnership with this institution, the participants from both colleges will engage in a collaborative learning experience, gaining valuable insights from each other's diverse perspectives through this Environmental and Leadership Summit as young leaders empowered to contribute meaningfully to society and be catalyst of climate action towards sustainable future.
- Filminera Resources Corporation
 - Filminera Resources Corporation, as a responsible mining company committed to sustainable development, recognizes the importance of empowering the next generation of leaders in addressing environmental and social challenges. This collaboration will bridge the gap to work alongside local communities, educational institutions, and environmental organizations in creating a more sustainable and resilient future for the region.
- Futures Thinking Office
 - The Futures Thinking Office, an organization in the DEBESMSCAT, under Dr. Alvin M. Mahawan, is committed to driving innovation, sustainability, and forward-looking solutions that address the pressing challenges of our time. Through its support, the Futures Thinking Office reinforces the values of fostering creativity, collaboration, and proactive problem-solving.

The Work Plan

• **Before the Event:**

Prior to the Event, the organization will be finalizing all logistics and ensuring that every detail is in place. This includes confirming the venue setup, arranging transportation services, confirming speaker and participant attendance, and distributing event materials such as schedules and guidelines. The team will also be coordinating with partners, sponsors, and vendors, as well as confirming accommodation options for participants from Mainland Bicol. Communication with all participants will be a key priority, ensuring they are well-informed and ready for the event.

• **During the Event**

On the event proper, the work plan will shift to real-time coordination and management of activities. Staff will be on-site to manage registration, provide assistance with transportation and accommodation, and ensure that the event schedule runs smoothly. On-the-ground teams will handle technical support, facilitate workshops and sessions, and ensure that the venue is maintained and ready for each program. Regular communication among staff, volunteers, and participants will be critical to address any immediate needs or issues as they arise.

• **After the Event**

The focus will shift to closing and evaluation. This will involve gathering feedback from participants and stakeholders, reviewing event outcomes, and identifying areas for improvement. Staff will assist in the safe departure of participants and ensure that transportation is provided to return them to their accommodations or home locations. Post-event reports and thank-you notes will be sent to speakers, sponsors, and partners. A final review of the event's successes and challenges will be conducted to inform planning for future events, ensuring continuous improvement.

Financial Plan (Expenses)

The funding for **BMEYLS 2025** will be primarily supported by key sponsors, including **Future's Thinking**, **Filminera**, and **YouthLed**, whose contributions will cover essential expenses such as logistics, venue arrangements, and participant services. Additionally, registration fees collected from participants will provide a substantial portion of the financial resources. The **Supreme Student Council** will also contribute an initial seed fund to support event preparations. This combined financial approach ensures the event's smooth execution while maintaining fiscal responsibility and sustainability.

Contingency and Crisis Management

The **contingency and crisis management plan** for **BMEYLS 2025** ensures the safety and smooth flow of the event by addressing potential risks and preparing for unexpected scenarios. The organizers will collaborate with key agencies such as the **Bureau of Fire Protection (BFP) Masbate** and the **CRCYC Masbate Chapter**, who will assist in safety inspections, provide emergency preparedness training, and be on standby throughout the event to ensure immediate response if needed. A dedicated **Committee on Medical** will also conduct a pre-event walkthrough to identify potential risks and ensure the readiness of first aid stations and medical equipment.

Partnerships with local hospitals and ambulance services will guarantee advanced medical care for severe emergencies, ensuring that health and safety remain a priority.

Venue safety and preparedness are equally critical. Before the event, inspections will be carried out to address potential hazards, establish evacuation routes, and ensure all safety measures are in place. Emergency kits with essential supplies will be accessible, and transportation contingencies, such as backup shuttle buses and vans, will be arranged to handle delays or vehicle breakdowns. To prevent technical disruptions, redundant systems for sound, lighting, and visual equipment will be prepared, along with backup generators. Real-time crisis response teams will monitor activities during the event, ensuring swift action and clear communication to minimize confusion or panic in the face of unexpected challenges.

After the event, a debriefing session will be conducted with all involved parties, including the BFP, CRCYC, and the Committee on Medical, to evaluate the response to any incidents and document lessons learned. This feedback will inform improvements to future contingency plans, ensuring continuous refinement of safety measures. By integrating agency support, a proactive medical team, and robust planning, the **contingency and crisis management plan** for **BMEYLS 2025** guarantees a safe, well-coordinated, and resilient event.

Competition Guidelines

MOBILE PHOTOGRAPHY CONTEST

A. ELIGIBILITY

- All contestants must be fully registered participants of the 3rd Bicol & 8th Masbate Environmental Youth Leaders Summit
- All contestants must not be a participant in the other competitions of the 3rd Bicol & 8th Masbate Environmental Youth Leaders Summit
- All contestants must have pre-registered for the mobile photography contest (this is so they will be included in the tour, which is the venue for the contest).

B. REGISTRATION

- A separate registration shall be done online. The online registration form will accept responses until 5 (five) days prior to the event. Failure to register in the online form will automatically disqualify the contestant.

C. MECHANICS

- The mobile photography contest will take place in an exclusive tour. The theme as well as the criteria for the contest will be announced during the pre-departure orientation to the location of the contest proper.
- The participants will provide their own mobile phone to be used for the contest.
- The entries should be in landscape orientation, in a 16:9 image ratio. Wide-angle shots or panoramic shots will not be allowed as an entry and will automatically disqualify the participant.
- The participants will submit their entries after arrival at the main venue. They will be guided by the facilitators in submitting their entries.
- The participants shall submit their entries in a JPEG format. They must rename their file entry to MB (contestant number). Their respective contestant numbers will be given to them during the pre-departure orientation.

- Entries will be printed and exhibited in the main hall of the venue. Judging will be done during this time.
- The 1st place, 2nd place, and 3rd place winners will be awarded during the closing program.

D. CRITERIA

- The contest will be judged with the following criteria:

Criteria	Percentage
Technical Skills: The photos should demonstrate the photographer's technical skills, such as composition, lighting, focus, exposure, and editing. The images should be well-composed, well-lit, in focus, correctly exposed, and effectively edited.	20
Relevance to the Theme: The photos should be relevant to the theme of the competition.	30
Storytelling: The photos should tell a story or convey a message, providing context and meaning to the viewer. The images should have a clear narrative or message, making the viewer engage with the photo on a deeper level.	30
Creativity and Originality: The photos submitted should showcase the photographer's creativity and originality in capturing the subject or scene. The images should be unique and visually appealing, highlighting the photographer's ability to think outside the box.	20

ESSAY WRITING CONTEST

A. ELIGIBILITY

- All contestants must be fully registered participants of the 3rd Bicol & 8th Masbate Environmental Youth Leaders Summit
- All contestants must not be a participant in the other competitions of the 3rd Bicol & 8th Masbate Environmental Youth Leaders Summit
- All contestants must register for the essay writing contest.

B. REGISTRATION

- A separate registration shall be done online. The online registration form will accept responses until 5 (five) days prior to the event. Failure to register in the online form will automatically disqualify the contestant.

C. MECHANICS

- The theme of the essay will be given on during the contest proper, after announcing the mechanics and criteria for judging to the participants.
- Participants will be given one (1) hour and thirty (30) minutes to write and finalize their entries. The use of cellular phones, laptops, or the internet will not be allowed during this time.
- The participants will not write their name, school, or organization in their entry. Violation of this rule will automatically result to disqualification.
- In the case the participant will not be able to submit his/her entry within the set time, one (1) point will be deducted from their overall score for every 5 minutes late in the submission deadline.

D. CRITERIA

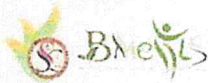

The following criteria will be used for judging:

Criteria	Percentage
Relevance to the Theme: The essay should be relevant to the theme of the competition. The essay should clearly address the topic and showcase the writer's understanding and insights into the subject.	30

QUIZ BOWL COMPETITION

A. ELIGIBILITY

- All contestants must be fully registered participants of the 3rd Bicol & 8th Masbate Environmental Youth Leaders Summit
- All contestants must not be a participant in the other competitions of the 3rd Bicol & 8th Masbate Environmental Youth Leaders Summit
- Each team must consist of **3 members per team/organization**

B. REGISTRATION

- A separate registration shall be done online. The online registration form will accept responses until 5 (five) days prior to the event. Failure to register in the online form will automatically disqualify the contestant.

C. MECHANICS

- The theme for the competition will be based on the BMEYLS Theme and Sustainable Development Goals (SDGs)
- The Quiz Bowl will consist of 3 rounds. For easy round, each correct answer earns 1 point. For average round, each correct answer earns 3 points. For difficult round, each correct answer earns 5 points.
- Each round will have 10 questions. Questions will be read twice by the Quizmaster. Participants will be given 5 seconds to write their answers on the illustration board provided to them. The Quizmaster will signal "go" and participants should raise their answers at the same time.
- For multiple-choice questions, teams must indicate the letter of their chosen answer. For open-ended questions, answers must be written legibly on the provided answer sheets/boards.
- In case of a tie, a sudden-death round will be conducted. Teams will be asked a set of **tie-breaking questions**, and the first team to answer correctly will win. If no team answers within the given time, additional tie-breaker questions will be provided until the tie is resolved.
- Use of electronic devices, reference materials, or any form of cheating will result in immediate disqualification.

POSTER MAKING

3rd BICOL & 8TH MASBATE ENVIRONMENTAL YOUTH LEADERS SUMMIT

Theme: "Lak-ang: Mobilizing Youth as Catalysts for Climate Action towards Sustainable Development, Innovation and Strategic Solutions"

Technology and information systems are pivotal in addressing climate challenges and advancing global climate action. Smart and strategic use of technology strengthens collaboration among stakeholders, including governments, non-governmental organizations, private sectors, and communities, fostering innovative climate solutions. Advanced technologies such as artificial intelligence (AI), Internet of Things (IoT), and blockchain can optimize renewable energy systems, enhance climate-smart agriculture, improve waste management strategies, and enable precise environmental monitoring. Smart information systems that collect, analyze, and share reliable data are essential for informed decision-making, enabling effective climate mitigation and adaptation measures. Harnessing technology and information systems accelerates progress toward sustainable development while ensuring a climate-resilient future.

B. Renewable Energy and Environment

The **Renewable Energy and Environment** sub-theme highlights the critical intersection of renewable energy technologies and environmental conservation to address climate change. Transitioning to renewable energy sources like solar, wind, and hydropower reduces global carbon emissions and promotes energy security, minimizing ecosystem disruption and supporting climate restoration efforts. This theme also emphasizes innovative approaches to integrate renewable energy projects within natural ecosystems, promoting biodiversity and ecosystem health. Collaboration across stakeholders is essential to create synergistic solutions that align technological advancements with environmental integrity, underscoring the commitment to a sustainable, low-carbon future where climate action drives ecological and economic resilience.

C. Health and Climate Resilience

Health and climate resilience emphasize the role of sustainable technologies in addressing health challenges exacerbated by climate change. Innovations like telemedicine, portable diagnostic tools, and climate-adaptive healthcare infrastructure ensure access to medical care in disaster-prone and remote areas. Additionally, green medical technologies that reduce emissions and medical waste contribute to a healthier planet and population. Global collaboration in research fosters eco-friendly medical solutions, addressing climate-related health risks while promoting resource sustainability. This theme highlights how health systems can adapt to climate impacts, ensuring the well-being of communities in a warming world.

D. Social Culture and Climate Adaptation

Social and cultural dynamics are integral to the success of climate adaptation efforts and the adoption of sustainable technologies. Community values, traditions, and behaviors influence how societies perceive and respond to climate innovations. Respecting cultural contexts while designing and implementing climate solutions enhances their acceptance and effectiveness. This sub-theme emphasizes the importance of inclusivity and cultural awareness in climate action, fostering behavioral changes and promoting shared

responsibility for environmental stewardship. Social cohesion and cultural understanding are critical to achieving equitable, community-driven climate solutions that resonate across diverse global contexts.

E. Economics, Business, and Climate Action

The intersection of economics and climate action focuses on leveraging sustainable technologies to create resilient and low-carbon economies. Businesses and economic systems must integrate climate considerations into policies and practices, prioritizing innovation that reduces environmental impact while promoting ethical and equitable growth. Green technologies enable efficient resource management, foster circular economies, and generate new economic opportunities through renewable energy and sustainable industries. By aligning economic goals with environmental objectives, this sub-theme advocates for collaborative approaches to ensure a just transition to a sustainable future, balancing profit, people, and the planet.

CRITERIA

Criteria	Percentage
Format of Work	10
Originality	15
Appropriateness of content	25
Creativity and uniqueness of design	20
Quality of message delivery/communication	30
Total	100

PITCH DESK PRESENTATION

A. ELIGIBILITY

- All contestants must be fully registered participants of the 3rd Bicol & 8th Masbate Environmental Youth Leader’s Summit
- All contestants must not be a participant in the other competitions of the 3rd Bicol & 8th Masbate Environmental Youth Leader’s Summit
- All contestants must register for the poster presentation contest.

B. REGISTRATION

- A separate registration shall be done online. The online registration form will accept responses until 5 (five) days prior to the event. Failure to register in the online form will automatically disqualify the contestant.

C. MECHANICS

- The participants will be given 30 minutes to pitch their concept paper.
- The team may opt to choose only one presenter or take turns on presenting

INTRODUCTION

[Indicate the background of the problem, purpose and objective of the research, hypothesis that was tested or a description of the problem being analyzed or evaluated.]

Example:

The study addresses the issue of (background of the problem), emphasizing its significance and relevance by reviewing existing literature and identifying gaps in current research. The primary purpose of the research is to (state the purpose), aiming to resolve (specific problem or gap). The objectives include (define objectives or research questions), and the study tests the hypothesis that (insert hypothesis, if applicable) or analyzes the problem of (description of the problem). The theoretical framework guiding this research is (briefly describe the theoretical framework or model).

RESEARCH METHODS

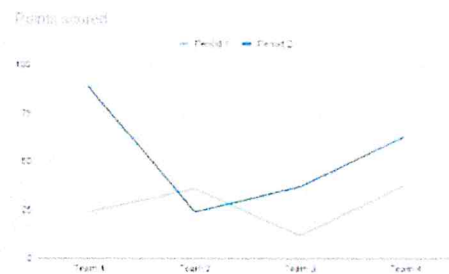

[Describe the data collection methods and analysis methods used.]

Example:

Data was collected using a (qualitative/quantitative/mixed methods) approach, with instruments including (surveys/interviews/experiments/observation). The sampling strategy involved (sampling technique, e.g., random sampling/convenience sampling), and the sample size was (sample size). Data analysis was performed using (statistical/qualitative methods), with tools such as (software/tools, e.g., SPSS, NVivo). These methods were selected to (justification for choice of methods) and ensure the reliability and validity of the findings.

RESEARCH RESULTS

[Resent as clearly and in as much detail as possible the findings / outcomes of the research.]

Picture 1. Diagram

Table 1. Abcd

DISCUSSION

[Discuss the implications of the research findings in relation to the research questions or hypotheses.]

Example:

The findings indicate that (discuss the implications of the results in relation to the research questions or hypotheses). These results (align with/diverge from) existing literature and theoretical frameworks, suggesting (explain how the results contribute to or challenge current understanding). The broader theoretical and practical implications include (consider the impact on the field or practical applications). Limitations of the study include (identify limitations affecting validity or generalizability), which suggest areas for future research such as (suggest further research directions to address limitations or explore findings further).

CONCLUSION

[Explain the significance of your findings / outcomes of the research and future implications of the results.]

Example:

The key findings of the research are (summarize the main results), which highlight (explain the significance of the findings). These results contribute to the existing body of knowledge by (describe how the findings advance understanding or impact practice). The broader implications for future studies or practical applications include (discuss potential future applications or research directions). Based on these findings, it is recommended that (offer recommendations or outline how future research could build on the current study).

BIBLIOGRAPHY

[An alphabetically ordered reference list must be included at the end of the manuscript. All cited references in the text must appear in the list. Authors are responsible for the accuracy and completeness of the references. References should include: author's name, publication year, title of the article or book, journal or publisher name, volume, issue, pages, and DOI (if available). Writing a bibliography must use APA 7th style.]

Example:

Brown, T. (2021). The role of AI in remote learning during COVID-19. *Journal of Educational Technology*, 20(3), 150-162. <https://doi.org/10.1234/edtech.2021.20.3.150>
