MR. GILBERT T. SADSAD, PhD
Regional Director
Department of Education Regional Office V

Dear Dr. Sadsad:

Greetings of peace!

The Biology Teachers Association of the Philippines, Inc.-Bicol Chapter will hold its Webinar Series on March 7, 14, 28 and April 11, 2026 at 8:00 - 11:30 AM via zoom platform. These webinars with the theme *“Evolution and the Diversity of Life”* where it aims to promote scientific updates, enhance collaboration, inform biology educators, improve pedagogy, and foster professional growth. By bringing together educators, researchers, and students, the webinar creates a platform for sharing knowledge, exchanging ideas, and inspiring innovation in biology education. Ultimately, it also aims to strengthen the biology education community and contribute to the overall improvement of biology education in the region.

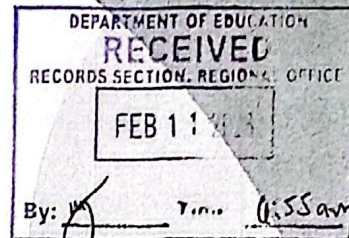

It is expected to gather a significant number of Biology educators, researchers, and students from all levels of public and private schools, educational region-wide. The 5-day webinar is a venue for the academe, research, and the industry to network and build ties.

In view of this, may we ask an advisory from your good office inviting participants from Secondary Schools in the region offering STEM program to join in the aforementioned activity. The webinars will also promote the relevance of Biology education as a life science subject in the country's growth and development. This also seeks to stimulate intellectual interaction between experts and participating students and teachers.

Thank you in anticipation of your generous support to the programs and activities of BIOTA- Bicol and God bless. Looking forward to your positive response. Your acknowledgement is highly appreciated. Thank you very much.

Respectfully yours,

MARIA FELICIANA BENITA M. ELORETA, PHD
President
