Subject: Artificial Intelligence Management Systems (AIMS) Training Workshop

Dear Sir/Madam:

Greetings!

We are pleased to introduce our new training course, **"Introduction to Artificial Intelligence Management System (AIMS)"**. This is the world's first course on ISO/IEC 42001, the pioneering international standard dedicated to Artificial Intelligence Management Systems (AIMS). This course is crucial for any professional involved in the development, implementation, or management of AI-based products and services. Whether you provide AI solutions or leverage them within your organization, this course is designed to ensure you use AI responsibly and effectively.

ISO/IEC 42001 is not just a standard; it's a necessity in today's tech-driven landscape. As AI technologies evolve at a breakneck pace, the need for a structured framework to manage AI risks and opportunities becomes paramount. This workshop provides you with the knowledge to implement and sustain an effective AIMS, helping your organization balance innovation with critical governance.

Course Benefits:

Risk Management: Learn to identify, assess, and mitigate risks associated with AI technologies while capitalizing on new opportunities.

Responsibility and Ethics: Promote the responsible use of AI, ensuring ethical considerations are at the forefront of your AI initiatives.

Transparency and Trust: Gain tools to enhance transparency and traceability in AI applications, building trust among users and stakeholders.

Cost Efficiency: Discover strategies to streamline operations and reduce costs through efficient AI management practices.

TRAINING COURSE OUTLINE

Course Title	**Artificial Intelligence Management Systems (AIMS**
Training Days	2 days – online (through Zoom)
Approach	Online learning/teaching with activities applicable for individual or group.
Target Audience	All employees of an organization, regardless of position or rank.
Training Category	• AI product managers seeking governance frameworks. • Compliance officers in tech-focused companies. • Executives overseeing AI strategy implementation. • IT professionals involved in AI deployments.

Overview

ISO/IEC 42001:2023 is the first international standard specifically developed for establishing, implementing, maintaining, and continually improving an **Artificial Intelligence Management System (AIMS)** within organizations.

The standard was jointly developed by the International Organization for Standardization (ISO) and the International Electrotechnical Commission (IEC) to help organizations govern the responsible development, deployment, and use of AI systems.

Purpose of ISO/IEC 42001

ISO/IEC 42001 provides a structured framework that enables organizations to:

- Manage risks associated with AI systems.
- Ensure ethical, transparent, and trustworthy AI practices.
- Demonstrate accountability and regulatory compliance.
- Improve AI governance across the organization.
- Continuously monitor and improve AI performance and impacts.

Training Objectives

By the end of the one-day course, participants will be able to:

A. Define key concepts and terminology related to ISO/IEC 42001.
B. Explain the benefits of implementing an Artificial Intelligence Management System.
C. Identify key AI governance, risk, and compliance requirements.
D. Recognize the importance of ethical and trustworthy AI practices.
E. Describe the steps involved in implementing and maintaining ISO/IEC 42001

Training Modules

Day 1 – 7 hours	Day 2 – 7 hours
➢ General awareness of Artificial Intelligence concepts, such as data, algorithms, models, and automation (no coding required) ➢ AI Life Cycle, Standards, Concepts & Techniques ➢ Principles of Artificial Intelligence Governance	➢ AI Controls and Clauses ➢ Policies for Artificial Intelligence ➢ Interest in AI governance, ethics, risk, and compliance
